

Your Health Information

You can securely and easily access your health information online 24 hours a day, 7 days a week when you register with one of the resources listed below. Available to British Columbians [across the province](#) or through [your health authority](#), these resources can provide you with access to your immunization records, lab results, medications dispensed, medical imaging reports and more.

Register with [Health Gateway](#) to access your COVID-19 test results or download your COVID-19 immunization digital card as proof of your immunization.

Note: The Health Gateway is not used for COVID-19 immunization registration and booking. Please visit the [COVID-19 Immunization Plan](#) for more information on getting immunized.

Your Provincial Resources

Health Gateway

[Health Gateway](#) provides British Columbians with secure access to a single view of their health information. It is accessible by anyone 12 and older with a [BC Services Card set up on a mobile device](#).

Health Gateway gives you access to your COVID-19 and medical information. This includes:

- COVID-19 test results and immunization records
- Dispensed medication information dating back to 1995
- Immunizations from public health and community pharmacies
- Health visits, consultations and procedures billed to the BC Medical Services Plan within the past 7 years

In the future, the Health Gateway will include access to laboratory test results and diagnostic imaging reports.

MyCareCompass

[MyCareCompass](#) (Lifelabs) can be used by British Columbians aged 16 or older to access most lab results and book appointments at Lifelabs.

Your Health Authority Resources

Fraser Health

MyChart™

[MyChart™](#) is an online patient portal with easy access to your medical records and personal health information.

Registration is open to patients in Fraser Health who are 19 or older from one of the following clinics: Fraser Health Renal Services, Community Respiratory Therapy, and Cardiac Ambulatory Care.

Registration is open to patients in Fraser Health who are 19 or older from one of the following clinics:

- Fraser Health Renal Services
 - Community Respiratory Therapy
 - Cardiac Ambulatory Care
-

Interior Health

My Health Portal

[MyHealthPortal](#) is an online tool that provides Interior Health patients with secure access to their personal health information.

Once enrolled, you will be able to:

- Access lab reports, medical imaging reports and visit history
 - View some transcribed reports from physicians, nurse practitioner and midwives
 - View some appointment details and instructions and
 - Update your address, phone number and other contact information
-

Island Health

My Health

[MyHealth](#) is a secure online resource that gives Island Health patients access to their personal health information. This includes: access to Island Health laboratory results, medical imaging reports, clinical documentation, and outpatient appointments.

You can register with MyHealth if you are 19 years and older, or between 12 to 18 years old with the support of your doctor or nurse practitioner.

Northern Health

HealthELife

[HealthELife](#) gives Northern Health patients secure online access to hospital services and hospital digital health information. You can access information for yourself, your children, or any adult or elderly family members you may be supporting in care.

You can view your lab results, including most COVID-19 tests; view your medical imaging reports; view scheduled hospital lab and medical imaging appointments; check in online for walk-in lab and other outpatient services; and share your health information.
